Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Parents are bombarded with claims that the world is a dangerous place. This culture of alarmism is weaving its way into nearly every aspect of our daily lives, making parents worry about common everyday products, food and healthy activities. In her new book, Julie Gunlock shows how the food nannies, environmentalists, public health officials, politicians and government regulators benefit from keeping the American public scared. Alarmists understand that parents naturally worry about the health and well-being of their children and will do just about anything to keep their kids safe. By leveraging this natural anxiety, alarmists gain the trust of parents and convince them to perpetuate the myths of danger, change their own behavior, and demand government protect them and their children. The culture of alarmism s greatest damage comes after they ve successfully scared the general public. That s typically when the politicians and government regulators descend with promises to save us from these dangers, through additional regulation and programs that expand their power base. The cost of this dynamic is high: wasted tax dollars, higher costs and inferior goods for consumers, and fewer jobs in companies navigating through red tape. More importantly, we all end up paying a personal cost with needless worry and a less free, less happy society. We deserve better. If you feel like you re living in an episode of Lost in Space and are tired of the constant Danger! Danger! warnings, this book is for you. If you love facts and hate junk science, this book is for you. If you think you know better than a government bureaucrat what s best for your family, this book is for you....
